LGBTI is really SGABZ in morals:

11. LGBTI – Lesbian, Gay, Bisexual, Transvestite, Intersex.
12. SGABZ – Sodom, Gomorrah, Admah, Bela, Zeboim.
13. Sodomy seems to be also rooted in anti-Christian blasphemy with the worst forms of immoral and insulting portrayals against Biblical characters and concepts that attends to Sodomite's expressions of their sexual deviances in public. This is the norm because Sodomy is expressly condemned in the Bible.
14. Various moral deviances not usually accepted by the public and legal institutions are able to pass uncorrected and ignored by them when they exist as part of the moral make-up of Sodomite cultural behaviour. Acceptance of Sodomite practices impairs one's moral judgement in many of the deviance usually rejected by the moral senses.
